### 1976 SPECIAL PROJECTS

#### WASHOE COUNTY SPECIAL RANGE IMPROVEMENT PROJECT (North Cal-Neva RC&D Project Area)

The North Cal-Neva RC&D Project Area consists of 9,165,000 acres in north-eastern California and northwestern Nevada. Included are all of Lassen and part of Modoc counties in California and parts of Humboldt, Pershing, and Washoe Counties in Nevada.

The "Program of Action" for the project area includes such conservation measures as: range development; improvement and protection; development, improvement, and protection of wildlife habitat and food; and meadow restoration, all of which the Washoe ASC County Committee felt were worthwhile goals.

In 1976, such measures as sediment detention or retention structures; erosion control dams; desilting reservoirs; sediment basins; debris basins; channel lining; chutes; drop spillways; leveling and filling, were added to encourage meadow restoration.

Four participants were involved in the pooling agreement during 1976. Cost-shares totaled \$3,450.29; small cost increase totaled \$370.79; and total paid producers in cost-shares was \$3,821.08.
